

STATE OF NEW HAMPSHIRE DEPARTMENT OF ENERGY

CRE 2022-002

**PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE
D/B/A EVERSOURCE ENERGY**

**Petition for License to Construct and Maintain Electric Lines Over and Across
Public Waters in Manchester**

ORDER OF NOTICE

On February 11, 2022,¹ Public Service Company of New Hampshire d/b/a Eversource Energy (Eversource, or the Company) filed a petition for a license to construct and maintain an existing 34.5 kV electric distribution line (the 393 Line) over and across public waters in Manchester. The petition and subsequent docket filings, other than any information for which confidential treatment is requested of or granted by the Department, will be posted to the Department's website (www.energy.nh.gov) at Utility Crossings Over State Lands and Public Waters /NH Department of Energy.

It is believed that the 393 Line was originally constructed circa 1950 and was not licensed. In its current petition, Eversource proposes to: (1) replace the original wood Structures 21 and 22 with new steel monopole structures; and (2) transfer the three existing transmission conductors, one neutral conductor and one ADSS conductor to the new structures. Structure 21 will be placed within 10 feet of its current location to avoid offsetting the new structure in a farm

¹ Eversource filed an initial petition with attachments on January 27, 2022 and resubmitted a replacement petition with revised exhibits on February 11, 2022, as a result of errors identified by Department Safety Bureau staff.

rod maintained by the landowner and Structure 22 will be placed within 10 feet of the original structure location.

The 393 Line crosses public waters of the Cohas Brook in Manchester. Specific locations of the crossing structures are further detailed in the docket filings and illustrated in petition attachments.

According to the petition, the structure replacement work will be accomplished within existing right-of-way easements, thereby mitigating impacts and concerns of property owners affected by the project. Eversource will obtain a New Hampshire Department of Environmental Services (NHDES) Shoreland Permit by Notification (PBN) and a wetland statutory permit by notification (SPN) for the work planned under this petition in relation to temporary impacts to wetlands, and the shoreland buffer and will be secured prior to the commencement of construction.

The Department will review the filing to assess the necessity of the requested license to meet the reasonable requirements of reliable service to the public, as required by RSA 371:17, and whether the license may be exercised without substantially affecting public rights in the identified public waters in Manchester, as required for approval under RSA 371:20. The applicant and any interested party has the right to have an attorney represent the party at the party's own expense.

Based upon the foregoing, it is hereby

ORDERED, that, the Department will hold a prehearing conference, pursuant to N.H. Admin. R., Puc 203.15, on March 28, 2022, at 9:00 a.m., at which any interested party may

provide its position with regard to the petition and any of the issues set forth in N.H. Admin. R., Puc 203.15; and it is

FURTHER ORDERED, that any interested party who wishes to participate in the proceeding shall file a written petition to intervene stating the interested party's basis for intervention consistent with RSA 541-A:32 and Puc 203.17 and specifying any objection the party has to the proposed crossings license. Petitions to Intervene shall be submitted to the Commissioner of the Department, with copies sent to the Petitioner that is seeking a license, no later than March 23, 2022. Failure to submit a Petition to Intervene at least three business days prior to the Prehearing Conference will constitute a waiver of the right to object to the Petition and the requested license; and it is

FURTHER ORDERED, that, immediately following the prehearing conference, Eversource, Department staff, and any intervening parties may hold a technical session to review the petition, as needed; and it is

FURTHER ORDERED, that, pursuant to N.H. Admin. R., Puc 203.12, Eversource shall notify all abutters to the proposed crossings by causing a copy of this order of notice to be sent, by any major delivery service that provides delivery confirmation, to the owners of all properties immediately adjacent and contiguous to the State land parcels that are subject to the proposed crossings. On or before March 23, 2022, Eversource shall file with the Department a list of all abutters so notified and copies of the return delivery confirmations. In addition, Eversource shall mail a copy of this order of notice to: (i) the City Clerk of Manchester, New Hampshire; (ii) the New Hampshire Attorney General; (iii) the New Hampshire Department of Environmental Services; (iv) the New Hampshire Department of Transportation; and (v) the

New Hampshire Department of Natural and Cultural Resources, and publish a copy of this order of notice on its website no later than one business day after the date of issue.

Jared S. Chicoine
Commissioner

Individuals needing assistance or auxiliary communication aids due to sensory impairment or other disability should contact the Department of Energy, 21 S. Fruit St., Suite 10, Concord, New Hampshire 03301-2429; 603-271-3670; TDD Access: Relay N.H. 1-800-735-2964. Notification of the need for assistance should be made no later than one week prior to the scheduled event. **Queries regarding this petition and associated docket filings may be submitted to Crossings@energy.nh.gov.**
