Gas Pipeline Safety Program

Vermont Public Service Board Rule

6.154 Compliance With Federal Regulations

Every gas transmission or distribution system shall be constructed, tested, and operated, except as otherwise provided in these Rules, in compliance with the provisions of the presently effective Federal Regulations and any future revisions of that code. When the regulations stated in these Rules are more stringent than the Federal Regulations, provisions in these Rules shall apply; if the provisions as stated in these Rules are less stringent than the Federal Regulations, the Federal Regulations shall take precedence.
