## I. BACKGROUND

The New Hampshire DOE, under RSA 12-P:2, is tasked with representing the positions of the DOE before the New Hampshire Public Utilities Commission (PUC), and is authorized to complete the record for consideration by the PUC when it must determine whether the services provided by electric, natural gas, water, and sewer utilities through their distribution networks are adequate for their customers' needs, and whether those services are provided at just and reasonable rates. There are three regulated electric distribution utilities in New Hampshire: Public Service Company of New Hampshire d/b/a Eversource Energy (Eversource), Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty (Liberty Electric), and Unitil Energy Systems, Inc. (Unitil).

The DOE is seeking qualified consultant(s) able to provide ongoing engineering and planning consulting services for review of: (1) Least Cost Integrated Resource Plans (LCIRPs) filed by electric distribution utilities with the PUC pursuant to RSA 378:37-:40; and (2) requests for cost recovery during rate cases filed by electric distribution utilities with the PUC pursuant to RSA 378:27-:28.

LCIRP proceedings provide an opportunity for the DOE to prospectively review system planning practices/criteria, planned system maintenance, and a sampling of planned capital investments to ensure they are scoped and scaled to deliver safe and reliable service at the lowest reasonable cost to ratepayers.<sup>1</sup> The DOE anticipates reviewing the following LCIRP related filings during the term of this contract:

- **DE 20-161 Eversource LCIRP:** Eversource filed an [LCIRP](#) and [Attachments](#) with the Commission on October 1, 2020, and provided a supplemental filings on [March 31, 2021](#), [April 30, 2021](#), and [May 28 2021](#), to ensure consistency with prior commitments in [Order No. 26,362 at 5-6](#) (June 3, 2020) and [Order No. 26433 at 15](#) (December 15, 2020); see [Settlement at 23-24](#) for further detail on elements of the distribution infrastructure condition assessment filed on March 28, 2021.
- **DE 21-004 Liberty LCIRP:** Liberty filed an [LCIRP](#) and [Appendices](#) with the Commission on January 14, 2021. The Liberty LCIRP includes a Grid Modernization Proposal at Appendix E.
- **DE 20-002 Unitil LCIRP:** Unitil filed an [LCIRP](#) and [Attachments](#) in January 2020 and a [Settlement Agreement](#) remains pending Commission review. Consistent with RSA 378:39, Unitil would not be required to file another LCIRP for Commission review until two years after a final order in that proceeding.

---

<sup>1</sup> [Order No. 26,358 \(May 22, 2020\)](#) provided extensive guidance regarding the Commission's expectations for electric utility distribution system planning, but is currently suspended pending resolution of a rehearing request.

Rate cases provide an opportunity for retrospective review of whether capital investments requested for recovery in the rate case, or a subsequent step adjustment, are used, useful, and were prudently incurred costs. The DOE anticipates reviewing the following rate-case related cost recovery requests during the term of the contract(s) contemplated by this RFP:

- **DE 21-030 Until Rate Case:** Until filed a [request for change in rates](#) on April 2, 2021. The request includes an approximately \$12 million increase in revenues and three step adjustments which would permit Until to request recovery of between \$2.7 and \$3.5 million per year in additional revenue requirement associated with non-growth capital investments placed in service in 2021, 2022, and 2023. Review of Until's request remains ongoing with a procedural schedule that provides for the filing of intervenor testimony on November 18, 2021, and hearings in mid-February 2022. Notably, the Until rate case includes a [proposal](#) to invest in approximately \$40 million of grid modernization assets over the next ten years.
- **DE 19-057 Eversource Step Adjustment:** [Order No. 26,433 \(December 15, 2020\)](#) approved a [Settlement Agreement](#) which permits Eversource to request recovery of up to \$9.3 million in additional revenue requirement associated with non-growth capital investments placed in service by December 31, 2021. Review of these investments is expected to take place primarily during the second quarter of 2022.
- **DE 19-064 Liberty Electric Step Adjustment:** [Order No. 26,376 \(June 30, 2020\)](#) approved a [Settlement Agreement](#) which, contingent upon certain conditions, permits Liberty Electric to request recovery of up to \$1.8 million in additional annual revenue associated with non-growth capital investments placed in service by December 31, 2021. Review of these investments is expected to take place primarily during the second quarter of 2022.

**The DOE will consider proposals in response to this RFP that propose a contract period of two years** from the initial contract effective date, with payment disbursed based on assigned projects and negotiated hourly rates. Proposers should incorporate any foreseeable impacts related to COVID-19 and state, local, or national health and safety protocols into their fee schedules and hourly and cost estimates.

## **II. SCOPE OF SERVICES AND DELIVERABLES**

The consultant(s) will be engaged and supervised by the DOE to perform the consulting work, and will work at the direction of, and in consultation with, DOE personnel. The selected consultant(s) will be expected to work on a broad range of distribution system engineering related assignments associated with the dockets listed above and must have demonstrable qualifications to provide consulting services in some, all, or portions of the following areas:

1. Prospective analysis and review of electric distribution system investments proposed in rate cases for planned step adjustments, and through least cost integrated resource plans;
2. Retrospective analysis and review of completed electric distribution system investments;

3. Quantitative and qualitative aspects of benefit-cost analysis, including for those investments which might be made for reliability purposes; and
4. Electric distribution system management and operations.

Specific tasks for the consultant may include, but are not limited to, the following:

1. Working collaboratively with DOE personnel to prepare discovery requests, review discovery responses, respond to discovery requests, prepare pre-filed written testimony, conduct review and analysis of party testimony, prepare rebuttal testimony, assist with hearing preparation, provide live testimony if necessary, and prepare reports, as needed;<sup>2</sup> and
2. Attending stakeholder group meetings, technical sessions, settlement conferences, and hearings, as needed.

The consultant(s) shall conduct an initial project scoping meeting with DOE personnel. The purpose of the meeting will be to review and refine the scope, task, and project approach requirements; review the allocation of resources among foreseeable proceedings and related deliverables to establish a project plan, with key deliverables and approximate milestone dates; and establish project management and communication protocols to ensure that the information needs of both the DOE and the consultant are satisfied.

In the process of preparing each deliverable, the consultant(s) will work closely with DOE personnel in order to facilitate effective knowledge transfer on each issue. The work of the consultant(s) will be subject to an evaluation of progress achieved against the above-referenced scope and tasks, to take place after completion of key deliverables identified during the project scoping meeting and subsequent regular status and progress meetings.

### **III. CONFIDENTIALITY**

Each proposer agrees to maintain as confidential all information received from the DOE in the course of this RFP and contracting process until such time as it is instructed otherwise by the DOE. A Proposal must remain confidential until the effective date of any contract resulting from this RFP. A proposer's disclosure or distribution of proposals or the information received from the DOE other than as permitted by the DOE will be grounds for disqualification.

## **V. SELECTION PROCESS AND SCORING CRITERIA**

The DOE will consider the following criteria when reviewing proposals:

- a. Knowledge and practical experience that the organization possesses, including that of its staff and any subcontractors assigned to the engagement.
- b. Experience and qualifications in providing similar services in New Hampshire as well as utility regulatory agencies in other states.
- c. Overall responsiveness to the requirements of the RFP, including completeness, clarity, and quality of the proposal.
- d. Interviews, if performed.
- e. References, if contacted.

A. Selection Process

Proposals will be reviewed and evaluated in a three-step review process, followed by a contracting phase. The four steps are summarized below:

Step 1 Preliminary Review: The DOE shall assess compliance with the submission requirements set forth in the RFP and minimum content set forth in Section IV. The DOE may waive or offer a limited opportunity to cure immaterial deviations from RFP requirements if it is determined to be in the best interests of the State.

Step 2 Preliminary Evaluation: An Evaluation Team consisting of DOE personnel shall initially score conforming proposals according to the evaluation criteria set forth above.

Step 3 Final Evaluation: If determined to be appropriate by the Evaluation Team, proposers may be invited to oral interviews. The DOE retains the sole discretion to determine whether to conduct oral interviews, with which proposers, and the number of interviews. Proposers are advised that interviews may be conducted with fewer than all proposers.

The purpose of oral interviews is to clarify and expound upon information provided in the written proposals. Proposers are prohibited from altering the basic substance of their proposals during the oral interviews. Proposers may be asked to provide written clarifications of elements in their proposals, regardless of whether an oral interview will be conducted.

References will be reviewed and/or contacted during Step 3, if determined to be appropriate by the Evaluation Team.

Information gained from oral interviews and references will be used to refine scores assigned during the Step 2 review and evaluation of the Proposal.

The Evaluation Team shall generate final consensus scores for each proposal, rank all proposals from best to least qualified as determined by their final scoring in accordance with the above procedures, determine its highest qualified proposer(s), and submit its recommendation to the Commissioner of the DOE. Selection is subject to review and approval by the DOE Commissioner.

Step 4 Contract Negotiation and Execution: The DOE shall negotiate with the recommended proposer(s), if necessary, and develop a contract and related documents consistent with this RFP, then submit the completed contract to the DOE Commissioner for approval and execution.

Notwithstanding any other provision of this RFP, this RFP does not commit the DOE to make an award of a contract. The DOE reserves the right, at its sole discretion, to reject any or all proposals, or any portions thereof, for any reason, at any time, including, but not limited to, canceling the RFP, and to solicit new proposals under a new procurement process.

Proposals shall be deemed incomplete and ineligible if information that is essential to the scoring evaluation is not included in the proposal. Proposals that fail to meet the following requirements will be deemed ineligible:

- Filing of a timely proposal, with the correct number of paper and electronic copies, and containing all mandatory elements;

All proposals deemed ineligible shall receive notification of that determination.

Broadly, the DOE will evaluate all proposals received and deemed eligible based upon completeness, clarity, quality of the proposal, how well the proposal meets the specified work scope and applicable timeline requirements, the qualifications and relevant experience of the consulting team, and the likelihood of the completion of all consulting work within the contract period. All proposals deemed eligible for consideration will be evaluated based upon the specific criteria identified.

## B. Scoring Criteria

The Evaluation Team shall consider all of the following criteria, and assign a corresponding point score, where a maximum score for all criteria shall be 100 points. The DOE reserves the right not to consider any proposal with a total aggregate point score of less than 70 points.

1. **Employee and Subcontractor Qualifications:** Qualifications, technical expertise, certifications, and knowledge that the organization or individual possesses, including that of the staff and any subcontractors proposed to be assigned to the engagement, providing services directly relevant to the specified scope of services. (Maximum Point Score: 20)

2. **Proposed Scope of Work:** Clarity and appropriateness of proposed general approaches and demonstrated knowledge of relevant subject matter, including proposed allocation of resources and time to critical tasks, proposed scope of work, and project schedule. (Maximum Point Score: 25)
3. **Jurisdictional Experience:** General experience providing similar services in New Hampshire, as well as utility regulatory agencies in other states, including similar current or prior engagements. Engagements relevant to New Hampshire utility affiliates in other jurisdictions may be considered. (Maximum Point Score: 25)
4. **Cost of Consulting Services:** Cost of consulting services and expenses, including the competitiveness of the proposed budget and/or hourly rates and any proposed discounts or other benefits. (Maximum Point Score: 20)
5. **Responsiveness to RFP:** Overall responsiveness to the requirements of the RFP, including completeness, clarity, and quality of proposal. (Maximum Point Score: 10)

## **VI. TERM OF CONTRACT**

**The term of the contract with any selected proposer(s) is expected to be for a period of two years from the contract effective date.** The contract term may be extended by an additional term at the sole option of the State, contingent upon satisfactory contractor performance, continued funding, and, when applicable, Governor and Executive Council approval.

## **VII. GENERAL CONDITIONS**

1. The DOE reserves the right to: reject or accept any or all proposals, or any part thereof; to determine what constitutes a conforming proposal; to waive irregularities that it considers non-material to the proposal, solely as it deems to be in the best interests of the State; to negotiate with any selected firm(s) or individual(s) in any manner deemed necessary to best serve the interests of the State, including to negotiate lower fees or a different hourly rate structure; and to contract for any portion of the proposals submitted and to contract with more than one proposer. In the event that the DOE determines to contract with more than one proposer, the DOE reserves the right to assign proceedings to proposers according to relevant qualifications and experience. This RFP and all information relating to this RFP (including, but not limited to, fees, contracts, agreements, and prices), are subject to the laws of the State of New Hampshire regarding public information and state procurement of goods and services.
2. If the DOE decides to award a contract as a result of this RFP process, any award is contingent upon approval of the contract by the DOE Commissioner and, if applicable, the Governor and Executive Council with payment subject to the DOE's special utility assessment process. Payments hereunder are contingent

upon the availability of funds assessed pursuant to RSA 365:37, II. The DOE shall assess the costs of the contract to the appropriate party(ies) and upon payment of the assessment, will process payment to the consultant. General funds will not be requested to support the contract resulting from this RFP.

3. The DOE reserves the right to request additional information from any or all prospective consultants submitting proposals to assist in the evaluation process.
4. Confidentiality of Proposal and Information Provided to Proposers:

The substance of a proposal must remain confidential until the effective date of any contract resulting from this RFP. A proposer's disclosure or distribution of proposals other than to the DOE may be grounds for disqualification. Each proposer also agrees to maintain as confidential all information to which it has access in the course of this RFP and contracting process until such time as it is instructed otherwise by the DOE.

5. Public Disclosure:

Pursuant to RSA 21-G:37, all responses to this RFP shall be considered confidential until the award of a contract. At the time of receipt of proposals, the DOE will post the number of responses received with no further information. No later than five (5) business days prior to submission of a contract to the Department of Administrative Services pursuant to this RFP, the DOE will post the name of each proposer, and rank or score of each proposal eligible to be scored. In the event that the contract does not require Governor and Executive Council approval, the DOE shall disclose the name of each proposer and rank or score of each proposal eligible to be scored at least five (5) business days before final approval of the contract. All such postings may be viewed on the DOE's website at: [energy.nh.gov/requests-proposals](http://energy.nh.gov/requests-proposals).

By submitting a proposal, the proposer acknowledges that the DOE is subject to the Right-to-Know Law, RSA Chapter 91-A. The content of each proposer's proposal shall become public information upon the award of any resulting contract. Any information submitted as part of a response to this RFP may be subject to public disclosure unless otherwise exempt. *See* RSA 91-A. In addition, in accordance with RSA 9-F:1, any contract entered into as a result of this RFP may be made accessible to the public online through the website Transparent NH: (<http://www.nh.gov/transparentnh/>). However, business financial information, confidential information, such as personally identifiable information, including, but not limited to, social security numbers, taxpayer identification numbers, employer identification numbers, and account numbers, proprietary information such as trade secrets, financial models and forecasts, and proprietary formulas, may be exempt from public disclosure under RSA 91-A:5, IV.

If any part of its proposal contains information that a proposer asserts is exempt from public disclosure, **the proposer must specifically identify all relevant text in a letter to the DOE, and must mark or stamp each page of the materials claimed to be exempt from disclosure as “confidential,”** and provide support for such assertion(s) as part of proposer’s response to this RFP. The proposer shall explain, in writing, what measures it has taken to keep such information confidential, and the personal privacy or competitive business interests that would be harmed if such information were to be publically disclosed. The explanation shall also identify by page number and proposal section number the specific information the proposer claims to be exempt from public disclosure pursuant to RSA 91-A:5. It is helpful if the text claimed to be confidential is also highlighted, underlined, or otherwise identified in the actual proposal itself. Marking the entire proposal or entire sections of the proposal as “confidential” will neither be accepted nor honored.

The DOE shall maintain the confidentiality of information contained in proposals, insofar as doing so is consistent with RSA Chapter 91-A. Any information a proposer identifies as exempt from disclosure shall be kept confidential until the DOE has determined, as necessary, whether such information is exempt from public disclosure pursuant to RSA 91-A.

In the event that the DOE receives a request to view portions of a proposal that the proposer has properly and clearly marked “confidential,” the DOE shall notify the proposer and specify the date the DOE intends to release the requested information, redacting any information the DOE independently concludes is exempt, consistent with applicable laws and regulations. Any effort to prohibit or enjoin the release of the information the DOE identifies for release shall be the proposer’s responsibility at the proposer’s sole expense. If the proposer fails to obtain a court order enjoining the disclosure, the DOE may release the information on the date the DOE specified in its notice to the proposer(s), or in its notice to any other relevant parties, without any liability to the proposer(s).

6. By submitting a proposal, a proposer agrees that in no event shall the DOE be either responsible for or held liable for any costs incurred by the proposer in preparation of or in connection with the proposal, or for work performed prior to the effective date of any resulting contract.
7. All parties submitting proposals shall be Equal Opportunity Employers. The selected consultant will be expected to comply with all federal, state, and local laws respecting non-discrimination in employment.
8. The DOE reserves the right to amend or cancel this RFP at any time. Proposers should check [energy.nh.gov/requests-proposals](https://energy.nh.gov/requests-proposals) for any addenda to this RFP before submitting their proposals, and for answers to any questions submitted by others.

9. The selected consultant(s) shall be required to submit a Taxpayer Identification Number (TIN), Employer Identification Number (EIN), or Social Security Number (SSN), and to register as a vendor with the State of New Hampshire.
10. The terms and conditions set forth in the State's Form P-37 (version 12/11/2019) "Agreement, General Provisions" (General Provisions) for contracts, attached hereto as Appendix A, shall apply to the contract to be entered into with the selected proposer(s). In addition, each contract shall be supplemented by three exhibits: Exhibit A will include any special provisions, including any modifications to the General Provisions regarding insurance coverage and other matters; Exhibit B will set forth in detail the Scope of Services; and Exhibit C will set forth in detail the price limitation, the source of payment (special utility assessment), and any preconditions to payment.
11. Once a contract becomes effective, any subsequent material changes or modifications to the contract terms must be submitted for review and prior approval by the Commissioner of the DOE and, if applicable, the Governor and Executive Council.
12. This RFP is not an offer. Neither the DOE nor this RFP shall create any commitment on the part of the State or confer any rights on the part of the proposer unless and until a binding written contract is executed between the DOE and the proposer, and if applicable, approved by the Governor and Executive Council.
13. Property of the State: All materials and data submitted or received in response to this RFP will become the property of the State and will not be returned to the proposer(s). Upon contract award, the State reserves the right to use any information presented in any proposal, provided that its use does not violate any copyrights, or other provisions of law, including RSA 91-A.
14. Non-Collusion: The proposer's signature on a proposal submitted in response to this RFP guarantees that the prices, terms and conditions, and work quoted have been established without collusion with other proposers and without effort to preclude the DOE from obtaining the best possible competitive proposal. Proposers who wish to submit joint proposals with other consultants must clearly identify that the proposal is a "joint proposal" and must identify all proposers in the first instance.
15. Challenges on Form or Process of the RFP

Any challenge regarding the validity or legality of the form and procedures of this RFP, including, but not limited to, the evaluation and scoring of proposals, shall be brought to the attention of the DOE at least ten (10) business days prior to the proposal submission deadline, by sending written notice to the RFP Point of Contact, Ms. Juli Pelletier, the DOE's Business Office Director. By submitting a

proposal, the proposer is deemed to have waived any challenges to the DOE's authority to conduct this procurement and the form and procedures of this RFP.

### **VIII. GENERAL PROVISIONS, FORM P-37 (version 12/11/2019), AND CERTIFICATES**

The selected proposer(s) will be expected to enter into a contract with the State of New Hampshire. The terms and conditions set forth in Form P-37 (version 12/11/2019) General Provisions (available at: [energy.nh.gov/requests-proposals](http://energy.nh.gov/requests-proposals)) are mandatory and will apply to any contract awarded to the proposer. In addition, project specific terms and conditions will be negotiated with the proposer and included in the final contract. For the convenience of the proposers, Form P-37 (version 12/11/2019) has been included as Appendix A.

When responding to this RFP, each proposer must explicitly indicate that the proposer shall comply with the requirements of Form P-37 (version 12/11/19). To the extent a proposer believes that an exception to the standard form will be necessary for the proposer to enter into a contract, the proposer should raise that issue during the proposer inquiry period. The DOE will review the inquiry regarding the requested exception(s) and respond that the exception is accepted, rejected, or note that the DOE is open to negotiation regarding the requested exception(s) at the DOE's sole discretion. If a proposer's exception is accepted, or is open to negotiation, the DOE will, by means of posting the answer to the proposer's inquiry, and prior to the conclusion of the inquiry response period, provide notice to all potential proposers of the exception(s) which has been accepted, or is open to negotiation, and indicate that exception is available to all potential proposers. Any exceptions to the standard form contract that are not raised during the proposer inquiry period are waived. In no event is a proposer to submit its own standard contract terms and conditions as a replacement for the State's terms in response to this RFP. The proposer inquiry period begins when the RFP is posted, and ends at the conclusion of the RFP's written inquiry period. All inquiries must be in writing, and must be sent to the RFP point of contact identified above.

With regard to Form P-37 (12/11/2019) General Provisions, Paragraph 14, "Insurance," please note that proposers may be allowed to substitute professional liability insurance for part or all of the per occurrence comprehensive general liability insurance coverage. In addition, excess liability insurance in an equal amount may be substituted for up to \$1,000,000 of the per occurrence comprehensive general liability or professional liability insurance coverage. The State reserves the right to consider further waiving or modifying the insurance requirements in Paragraph 14 based on inquiries and proposals submitted, consistent with the procedure described above.

**A proposer will be required to fill in the P-37 Form (version 12/11/2019) ONLY upon the DOE's selection of its proposal, and prior to submission of the final contract for review and approval by the DOE Commissioner and, if applicable, the Governor and Executive Council.**

The selected proposer(s) will be required to provide the following certificates prior to entering into a contract with the DOE:

Secretary of State's Office Certificate of Good Standing ("CGS")	Business organizations and businesses using trade names need a CGS, except for nonresident nonprofit corporations. Individuals contracting in their own names do not need a CGS.

Contractor must complete all Services by the Completion Date specified in block 1.7.

**4. CONDITIONAL NATURE OF AGREEMENT.**

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. 8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or
