Subject: Licenses for the Installation of Cable

Dear Mr. Walsh,

We respectfully submit this License Application CRC 2025-002 regarding the installation of a cable crossing State owned land and waterways.

Should you require any further information or clarification, please do not hesitate to

Sincerely,

DEPARTMENT OF ENERGY

BRETTON WOODS TELEPHONE COMPANY, INC.

Application CRC 2025-002

APPLICATION OF BRETTON WOODS TELEPHONE COMPANY, INC FOR A LICENSE TO
CONSTRUCT AND MAINTAIN A CABLE OVER PUBLIC WATERS ACROSS THE
AMMONOOSUC RIVER IN THOMPSON AND MESERVES PURCHASE, NEW HAMPSHIRE
AND OVER AND ACROSS STATE-OWNED LAND ON MOUNT WASHINGTON IN SARGENT'S
PURCHASE, NEW HAMPSHIRE

Pursuant to RSA 371:17, Bretton Woods Telephone Company, Inc. ("BWTC"), a public utility engaged in the transmission, distribution and sale of data, information, video, voice and other communication services in the State of New Hampshire, hereby submits an application to the Department of Energy ("Department") for a license to construct and maintain a cable over public waters across the Ammonoosuc River in Thompson and Meserves Purchase, New Hampshire and over and across State-owned land on Mount Washington in Sargent's Purchase, New Hampshire.

In support of this application BWTC states as follows:

1. In order to provide communication services to the many businesses and visitors at the summit of Mount Washington, BWTC is proposing to install and maintain a cable over public waters across the Ammonoosuc River in Thompson and Meserves Purchase, New Hampshire to an existing maintenance bridge for approximately 40' and then generally the cable crosses into the Mount Washington State Park on Mount Washington in Sargent's Purchase into existing underground conduit and in existing communications infrastructure for about 955'.
2. BWTC attests that the cable work will be accomplished within existing underground conduit and existing communications infrastructure.
3. BWTC will maintain and operate the crossings as necessary.
4. This important project may be exercised without affecting the use and enjoyment of the State-owned land and public waters because the cable will be installed in existing conduits and existing communications infrastructure.

WHEREFORE, BWTC requests that the Department:

1. Find that the license application herein may be exercised without substantially affecting the public rights in the State-owned land and public waters crossing, which is the subject of this application; and
2. Grant BWTC a license to install and maintain a cable in the existing underground conduit as specified in the application over and under State-owned land and across public waters on an existing maintenance bridge.

Date at Bretton Woods, New Hampshire this 16th day of April 2025.

Respectfully submitted
Bretton Woods Telephone Company, Inc.

Art Nicholson
