## Thoughts on Request for Public Comment on Improvements and Potential Changes to Renewable Energy Fund Programs

### PhotoVoltaic

The limit of \$1000 needs to be increased to \$5000

No means testing to qualify for the rebate

### Commercial Solar

The limit of \$10,000 needs to be increased to \$25,000

### Low to Moderate community solar

Mix the federal and state money to increase available funds

### Local government

Increase the money available for local governments. Put them ahead of small businesses.

### Battery storage

Yes make some funds available for battery storage devices.
