RFP #2021-020

NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION

REQUEST FOR PROPOSALS

Deployment of Offshore Wind in the Gulf of Maine
New Hampshire Impact Assessment Consultant

	Questions	Answers
36.	There is no explicit mention in the RFP to study the impact of offshore wind to archaeological/cultural resources. Will consultants be required to address archaeological resources as part of the Environmental Impact Assessment? If so, will an archaeological assessment be required for NH state waters and shorelines only, or also for federal waters and the entire Gulf of Maine?	“Archaeological/Cultural Resources” is not included in the RFP’s scope of services and deliverables.
