Renewal of Registration as Provider of Electric Aggregation Service

Dear Mr. Kurzer:

On January 23, 2023, TFS Energy Solutions, LLC (d/b/a Tradition Energy) submitted an application to the Department of Energy (Department) to renew its registration as a provider of electric aggregation service.

Review of the application determined it is complete and meets the requirements for approval under Puc 2003, Registration and Assessment Requirements, and Puc 2006.02, Information Required for Initial and Renewal Registration of Aggregators.

Under RSA 374-F:7, as amended effective July 1, 2021, the Department is now responsible for registration and regulation of electric aggregators and competitive electric power suppliers and for the adoption of related rules. The Department therefore is authorized to enforce the relevant provisions of the Puc 2000 rules, including those related to aggregator registration. *See* RSA 12-P:14.<sup>1</sup>

Tradition Energy's application for registration renewal is hereby approved, effective as of May 18, 2023, under Puc 2003.06(e)(1). The renewed registration is for a term of two years and expires at the close of business on May 18, 2025. Pursuant to Puc 2003.06(a), you must submit your next renewal application at least 60 days prior to the expiration of the approved registration term, on or before March 19, 2025.

Please be aware that registered providers of electric aggregation service are subject to specific requirements contained in N.H. Code Admin. Rules Puc 2000 – Competitive Electric Power Supplier

<sup>1</sup> On July 1, 2021, the Department came into existence and many functions previously performed by the Public Utilities Commission (PUC) were transferred to the Department.
